# Remotely manage your field teams

Our online, real-time GPS monitoring solution.

Can you afford not to?

Digitally Transform Your Business

Timecard gives you a bird's eye view of employee activity, locations, customer engagements, Time, Attendance, and more.

Econz Wireless workforce management application – Timecard, generates PDF forms, photos, digital signatures, GPS tracking information, job costing, time, and attendance from a Smart Phone or tablet.

The mobile data captured helps employers manage their workforce better by increasing efficiency, productivity, reducing time-theft, and streamline the back-office payroll processes.

View individual worker details including activity and current positions.

The 'Breadcrumb' trail views shows speed direction, location and status of workers.

Covid-19 Self-Assessment Forms and Surveys
